Use me to build a fuzz designed by my bro Amir

Hi there!

Thank you for building me!

I am here to make your sound weird.

But not that weird.

But pretty heavy.

Since I am kinda coin-shaped you can also toss me if you need to make a decision.

You can basically do that with every PCB...

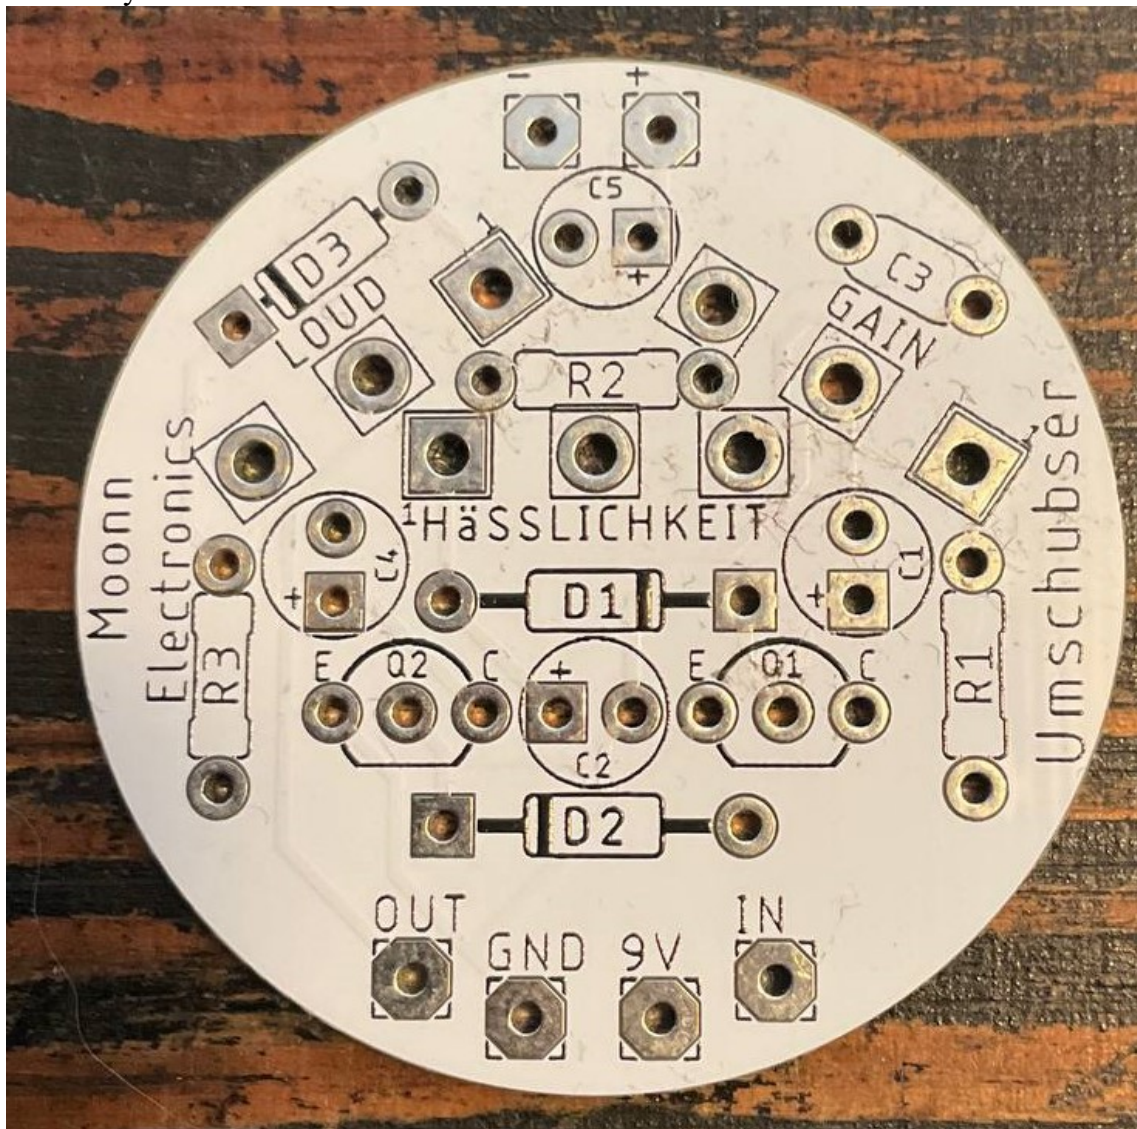

But are they coin-shaped?

I don't think so!

If you have any questions or anything else to say, just write an email to

Have a nice day!
